Monthly Review of the Texas Economy—October 2020

Post-COVID-19 Economic Recovery

By Ali Anari

The Texas economy lost 583,600 nonagricultural jobs from September 2019 to September 2020, an annual decline of 4.5 percent, smaller than the nation’s employment decline of 6.4 percent (Table 1 and Figure 1). The nongovernment sector lost 566,600 jobs, an annual decline of 5.2 percent, also lower than the nation’s employment decline of 6.8 percent in the private sector (Table 1). Texas’ seasonally adjusted unemployment rate in September 2020 was 8.3 percent, higher than the 3.5 percent in September 2019. The nation’s rate increased from 3.5 to 7.9 percent (Table 1).

Texas Employment Percentage Change by Industry

Table 2 shows Texas industries ranked by employment percentage change from September 2019 to September 2020. All Texas industries had fewer jobs in September 2020 than in September 2019. Annual job loss rates varied from 0.32 percent in financial activities to 22.58 percent in the state’s mining and logging industry. Figures 2 to 13 show trends in employment percentage change by industry.

Texas Job Shares by Industry and the Government Sector

Table 3 shows Texas industries and the state’s government sector ranked by their shares of Texas jobs in September 2020. Of the 12,265,200 nonagricultural jobs, the highest percentage was in the government sector followed by trade, professional and business services, education and health services, leisure and hospitality, and manufacturing. Since September 2019, the government sector; trade; professional and business services; education and health services; manufacturing; financial activities; and transportation, warehousing, and utilities have expanded their shares of Texas employment at the expense of leisure and hospitality, construction, other services, mining and logging, and information. Figures 14 to 25 show trends in shares of total Texas jobs by industry.

Contributions of Texas Industries to Texas Employment Percentage Change

The statewide employment percentage change from September 2019 to September 2020 is the weighted average of employment growth or decline rates of all Texas industries for the period. Weights are shares of jobs by industry. The positive or negative contribution of each industry to the statewide employment percentage change is equal to the employment growth or decline rate in that industry multiplied by its share of Texas jobs. Table 4 shows Texas industries and the state’s government sector ranked by their contributions to Texas employment percentage change from September 2019 to September 2020. All the state’s industries had negative contributions. Figures 26 to 37 show trends in contributions of Texas industries to Texas job growth or decline rates.

Employment Percentage Changes by Texas Metropolitan Areas

All Texas metros except College Station-Bryan had fewer jobs in September 2020 than in September 2019 (Table 5). Texarkana had the smallest employment decline followed by Waco, Sherman-Denison, Tyler, Austin-Round Rock, Dallas-Plano-Irving, Abilene, Killeen-Temple-Fort Hood, Lubbock, and San Antonio-New Braunfels. Figures 38 to 63 show trends in annual employment growth or decline rates for the state’s metropolitan areas.

Texas Job Shares by Metropolitan Area

Table 6 shows Texas metropolitan areas ranked by their shares of total Texas jobs in September 2020. Houston-The Woodlands-Sugar Land had the largest share of Texas jobs followed by Dallas-Plano-Irving, Austin-Round Rock, Fort Worth-Arlington, San Antonio-New Braunfels, El Paso, and McAllen-Edinburg-Mission. Figures 64 to 89 show trends in metropolitan shares of total Texas jobs.

Contributions of Texas Metropolitan Areas to Texas Employment Percentage Change

The statewide employment percentage change from September 2019 to September 2020 is the weighted average of employment growth or decline rates of all Texas metros for the period. Weights are shares of jobs by area. The positive or negative contribution of each metro to the statewide employment percentage change is equal to the employment growth or decline rate in that area multiplied by its share of Texas jobs. Table 7 shows Texas metros ranked by their contributions to Texas' employment decline from September 2019 to September 2020. Houston-The Woodlands-Sugar Land accounted for the largest percentage of the state's employment decline rate followed by Dallas-Plano-Irving, Fort Worth-Arlington, San Antonio-New Braunfels, Austin-Round Rock, El Paso, Midland, and McAllen-Edinburg-Mission. Figures 90 to 115 show trends in contributions of Texas metros to total Texas job growth rates.

Unemployment Rate by Metropolitan Area

The state's actual unemployment rate in September 2020 was 8.3 percent. Amarillo had the lowest unemployment rate followed by College Station-Bryan, Abilene, Lubbock, Sherman-Denison, Austin-Round Rock, and Waco (Table 8).

Employment Percentage Changes by Industry in Largest Texas Metropolitan Areas

Table 9 shows annual growth or decline rates of employment by industry in the six largest Texas metropolitan areas from September 2019 to September 2020. The state's leisure and hospitality industry is bearing the brunt of the COVID-19 pandemic in the major metro areas followed by the information industry and other services industry.

Table 1
Texas and U.S. Labor Markets

NonFarm Employment	Sept. 2020	Sept. 2019	Change	
			Absolute	Percent
Texas	12,265,200	12,848,800	-583,600	-4.5
